

# CRYPTOGENIC STROKE

**Medtronic**  
Supports the American Heart  
Association/American Stroke Association's  
Cryptogenic Stroke Initiative

**BETTER COLLABORATION  
BETTER DIAGNOSES  
FEWER RECURRENCES**

In about one in three ischemic strokes, the root cause is still unknown after testing. That's when it's important to dig deeper for a definitive diagnosis. Collaboration by neurologists, cardiologists, electrophysiologists and other integral team members may reveal the answers needed to provide targeted treatment for preventing recurrent strokes. Look for a variety of cryptogenic stroke resources on our website.
